OPENING REMARKS

**FROM
MR. ENOCK ALUMASI MAKANGA,
MANAGING DIRECTOR,
VICTORY GLOBAL IMPACT**

Ladies and Gentlemen, esteemed guests, exhibitors, speakers, and partners, It is my great pleasure to welcome you all to the Third Edition of the Nairobi Security Expo and Conference 2024. It's an honor to host this gathering of security experts, innovators, industry leaders, and stakeholders committed to enhancing safety and security across Kenya and the East African region. Thank you all for your presence here today and for sharing in our vision to create a more secure and resilient future.

As we gather here over the next two days, we are reminded of the critical role that security plays in every aspect of our lives, from safeguarding our homes and businesses to ensuring national stability and economic prosperity. This year, our theme, "Securing Our Future: Innovations, Strategies, and Technologies," is a call to action for everyone involved in the security sector. In a world where new threats and challenges arise daily, it is vital to continuously evolve and innovate, to create systems and solutions that are not only effective but also adaptable.

Our commitment at Victory Global Impact Africa has always been to bridge knowledge and innovation with action, and this event reflects that mission. This year, we are proud to bring together leading voices and groundbreaking technologies that will help us navigate the evolving security landscape. We are excited to showcase over 20 exhibitors, each representing unique approaches to safety and security, and to host discussions led by some of the most respected professionals in our industry.

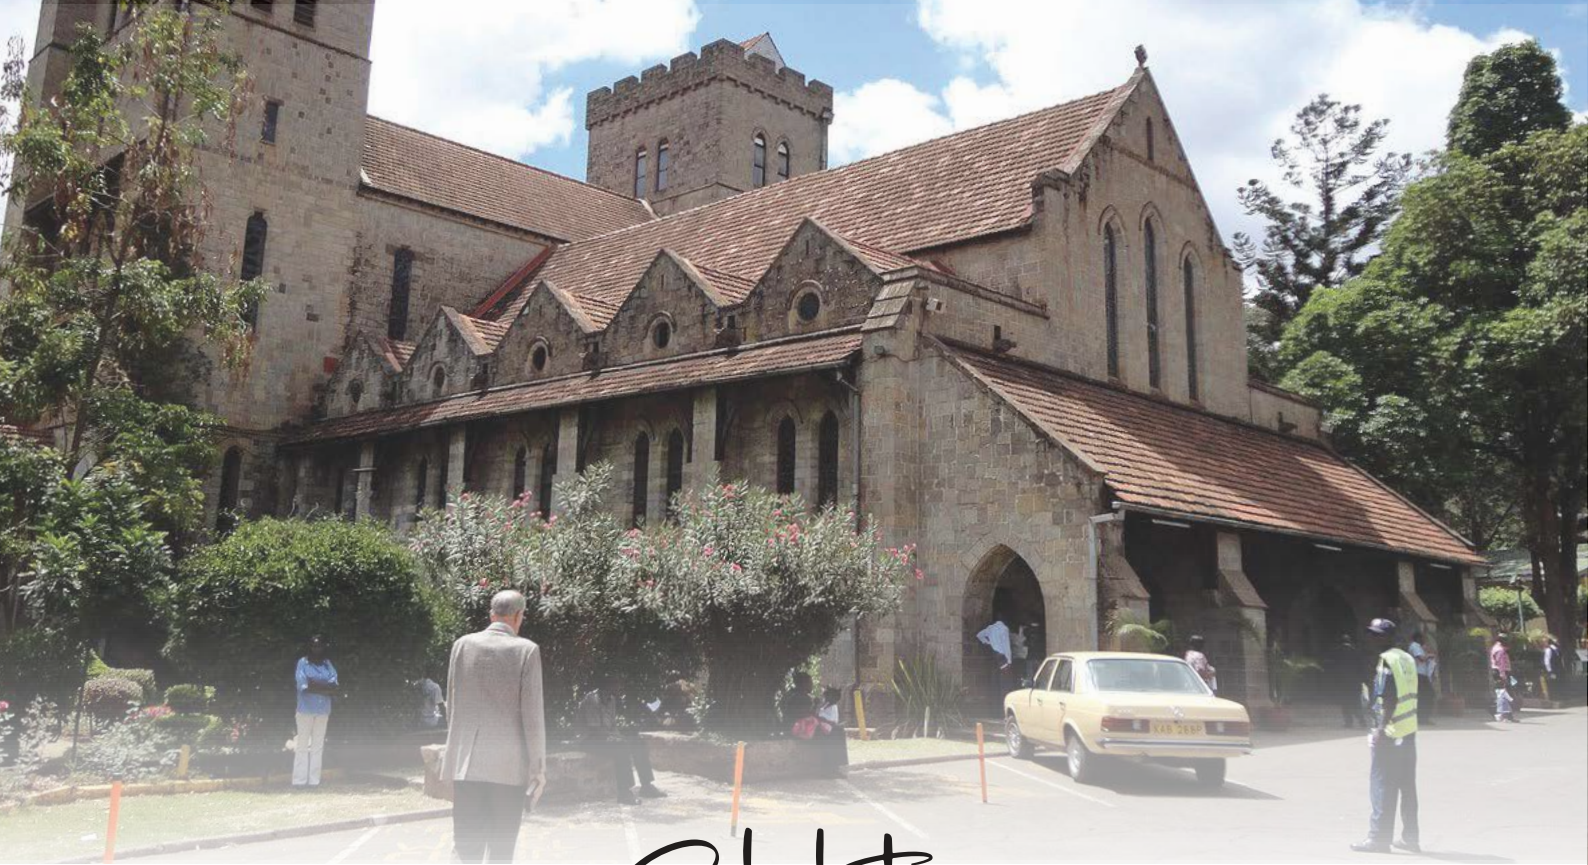

I would like to extend a special thanks to our esteemed keynote speakers, panelists, and exhibitors for their invaluable contributions and insights. Your work is instrumental in setting new standards for security and resilience across our country and beyond. I also extend our gratitude to our sponsors and partners for their continued support, without which this event would not be possible. As you network, explore innovative solutions, and participate in discussions, I encourage each of you to consider how we can collectively strengthen our security frameworks, not only through the adoption of new technologies but through collaboration, shared expertise, and enduring partnerships.

Thank you once again for joining us at the Nairobi Security Expo and Conference. Let us make the most of this opportunity to learn, share, and collaborate as we work towards a more secure and resilient future for all.

THANK YOU.

MR. ENOCK ALUMASI MAKANGA

Managing Director,
Victory Global Impact Africa

Exhibitors

Business Security Solutions

Antitheft Systems

Detacher D011

This is a tool designed to quickly and safely remove security tags at check out. Ideal for fast-paced retail environments.

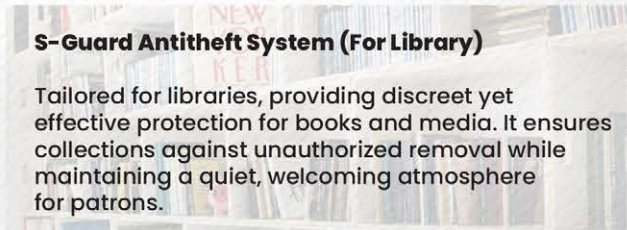

S-Guard Antitheft

It quickly and accurately detect potential theft threats, safeguarding business against loss.

Soft Tags & Tag Deactivator

They integrate smoothly with EAS systems to secure merchandise. The soft tag deactivator ensures a quick and seamless checkout by disabling tags on purchased items.

S-Guard Antitheft System (For Library)

Tailored for libraries, providing discreet yet effective protection for books and media. It ensures collections against unauthorized removal while maintaining a quiet, welcoming atmosphere for patrons.

Metal Detectors

Walk Through Metal Detectors

- S9 - Accurate detection for high traffic areas
- DPW _200S - Enhanced security for entry points.
- Walk Through Metal Detector (With Heat Detector) - Advanced metal and temperature detection.

Ideal for enhancing security at entrances, they provide businesses with an effective solution to maintain safety standards.

Hand Held Metal Detectors

Highly sensitive and easy to use. Ideal for security checks, allowing quick detection of concealed metal objects.

They are widely used in settings where high security is crucial, from event entrances to sensitive business premises.

Thermal Box

Combines metal detection with temperature screening, providing dual security for entry points. Ideal for high traffic locations, it ensures both physical security and health safety by identifying metal objects and elevated body temperatures simultaneously.

Diplomatic Safes

Diplomatic Safes

Built with advanced fireproof and tamper-resistant technology. These safes offer robust protection against unauthorized access and environmental threats.

Ideal for embassies, government offices, and business handling confidential materials.

Ezviz CCTV Cameras

CCTV Cameras

4G Camera, 2K Resolution, AI powered Human Detection, Color in night, Two way Talk, Weatherproof design and ALL SIM SUPPORT.

WOMEN IN SAFETY EXCELLENCE
Unlocking Potential

WOMEN IN SAFETY EXCELLENCE (WISE) is a premier women in security and safety association with a mission of elevating, educating and empowering women in all aspects of safety and security with members from the public and private security sectors in Kenya.

Driven by key objectives of mentorship, networking, collaboration, safety and security, WISE has created a safe space where women can connect, support each other, work with other diversity and inclusion champions and drive change. Since inception in 2019, WISE has worked to ensure women have grown through peer-to-peer engagement, learning resources, and a community in which they thrive in an industry that's historically underrepresented them.

WISE has two existing programs; the Mentorship Program and the Safety and Security Awareness Program. Both programs are run by experienced professionals who offer guidance to the participants, helping them to be more self-aware and tap onto their personal and external resources to find their footing and realize their full potential in a field that often lacks female role models.

The "WISER by WISE" initiative, a by-product of the Mentorship Program, produces educational webinars spearheaded by the program graduates. The initiative has not only enabled growth but also impacted hundreds in various topical issues touching on safety, security, career development, selfcare, mental health, just to mention but a few. On the other hand, the Safety and Security Awareness Program sponsored by Mon'More Concepts Limited brings critical knowledge to participants, highlighting holistically what security means to a woman from a personal, professional and environmental perspective for participants to develop confidence to navigate their environments securely and thrive in both personal and professional contexts
